**DETAILED ACTION**

1) The following is an examiner's statement of reasons for allowance: The reference Morl et al show a segmented traveling wave electrode in fig. 1, and in fig.2 there is shown a semiconductor under the electrode, but there is no showing that this semiconductor is segmented with electrical separators as is claimed by the instant invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2) The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Walker (US 2003/0190107) in [0022] discusses using a semiconductor next to the waveguide to confine the electrical field.
